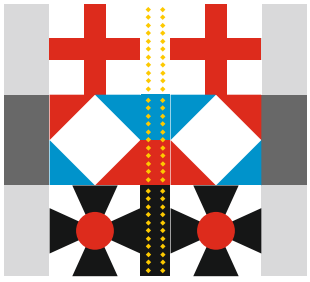
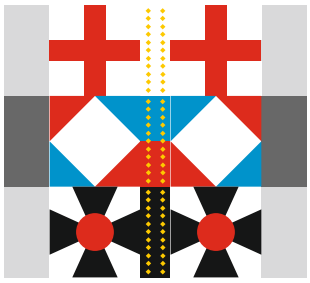
Flag Size Samples

Print this sheet on A4 paper and the flags should be the same sizes as those on our printed sheets.
Instructions for assembling and attaching the flags can be found on the website at www.tinytintroops.co.uk/flags/instructions.pdf

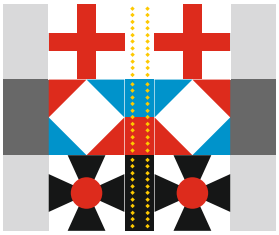
Tiny Tin Troops

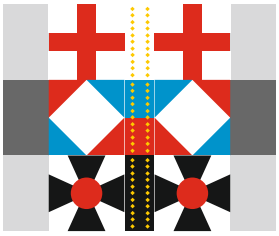
12mm



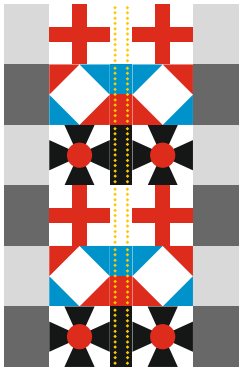


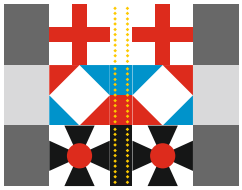
10mm



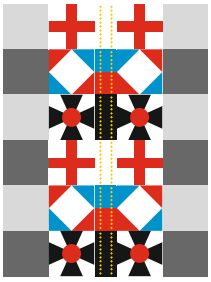


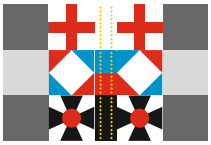
8mm





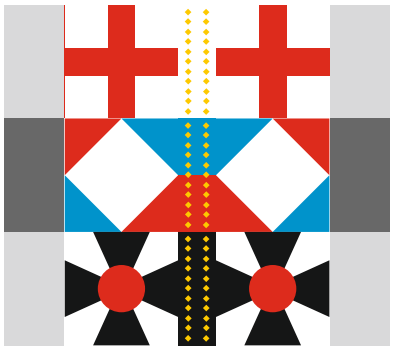
6mm

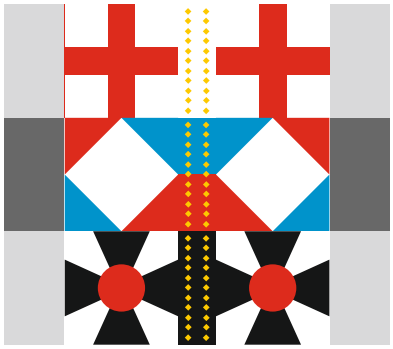




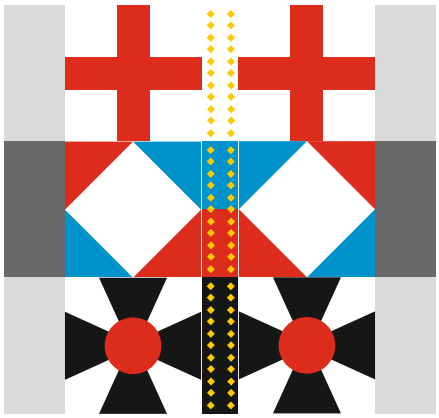
10 & 12mm flags have a central section (that wraps around the flagpole) that is 4mm wide and on 5, 6 & 8mm flags this is 3mm wide.
If these do not fit the figures you are using then please let us know and we will try and produce sheets with the correct dimensions for that figure range.

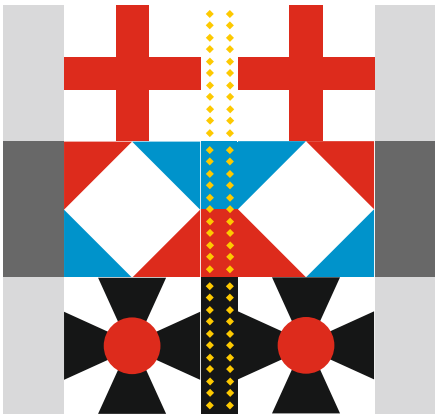
15mm





18mm





These are the dimensions for 15 & 18mm flags.
In these the central section is 5mm wide. This seems to fit Essex figures but I'd be grateful for any feedback on other ranges - is this too small or too large ?
